-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over May (US Patent 2,428,979) in view of Neff (US Patent 4,861,404).

May discloses a structural element and a method of making it. As shown in the figures, a plurality of sheets or fabrics are stacked and bonded together along lines of adhesive 18. After bonding, the sheets are cut to size and expanded to form structural elements with honeycomb or lattice structures 26.

However, May does not disclose closing at least some of the compartments at the first end or the second end as claimed by the applicant. Regarding this difference, the applicant is directed to the reference of Neff.

Neff discloses a method of making a honeycomb product. As shown in Figs. 1-2, open portion or legs 20 of sheets 8 and 10 are heat bonded to form closed cells of honeycomb product 2.

It would have been obvious to one having ordinary skill in the art to close any open compartments of the honeycomb material, as taught by Neff, in the method and article of May in order to improve the structural integrity of the elements being manufactured.

Regarding claim 12, applicant is reminded that the intended use of an article is not germane to the patentability of an article claim.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-10 and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 12, "and so on" is indefinite since it is unclear how many sheets are being joined in applicant's claim.

Claim 3, line 5, "and so on" is indefinite since it is unclear how many sheets are being joined in applicant's claim.

Claim 4, line 5, "and so on" is indefinite since it is unclear how many sheets are being joined in applicant's claim.

Claim 6, line 9, "and so on" is indefinite since it is unclear how many sheets are being joined in applicant's claim.
